OAQ Ural Methanol Group Engineering support for a methanol plant	Nishnij Tagil Project management consulting services	Russia	2006	2012
				668
PCK Raffinerie GmbH Schwedt Revamp of the stripping column with further peripheral equipment to improve the propene recovery process	Schwedt Basic engineering, detail engineering, procurement and expediting, construction and installation supervision, commissioning	Germany	2009	2010
				751
PETROM LPG Odourisation unit	Petrobrazi FEED	Romania	2009	2009
				711
Linde Installation of an air separation plant	Kobierzyce Detail engineering including layout, steel structure and piping detailed engineering for engine room, cooling water, pre-cooling and molar sieve station by Intergraph®, basic engineering for cable traces	Poland	2008	2009
				613
Romanian Refinery Engineering of a gas sweetening plant (amine washing section)	Onesti Detail engineering including process simulation and specifications of columns and all related equipment (pumps, heat exchangers, tanks, measuring equipment, electrical system etc.)	Romania	2008	2009
				620

Project description	Services and supplies by Pörrer	Remark		
AE&E Engineering for a new fluegas desulphurisation plant	Turceni Basic engineering for cable- & pipe routing including piping layout and electric-instrumentation-automation	Romania	2008	2008
				627
DOMO Caproleuna GmbH Revamp of a process gas compressor	Leuna Basic engineering, detail engineering, site supervision	Germany	2008	2008
				672
Rominserv Implementation of vapor recovery units (VRU) and gas balancing systems	Ploiesti Feasibility study incl. cost estimation; included disciplines process, machinery/apparatus, piping layout, electric-instrumentation-automation and civil engineering	Romania	2008	2008
				622
S.C. SYSCOM 18 S.R.L. Revamp of a vapour return system in Bacau and Timisoara according to European and Romanian environmental regulations; retrofitting of pressure equalization system and vapour recovery system	Timisoara, Bacau Detail engineering and preparation of the documents needed to acquire certificates and approvals (authority engineering)	Romania	2008	2008
				619
Magyar Cukor Kft. Biogas Processing Plant wit CO2-removal, feed of methane in natural gas grid	Kaposvár Feasibility Study	Hungary	2007	2008
				640
